EDUCATION

William B. Travis High School

Houston, Texas

High School Diploma

Expected Graduation, May 2027

- o **GPA:** 4.46/4
- o **Rank:** 35/860
- o **Advanced Coursework:** AP Calculus BC, AP Biology, AP Computer Science Principles, AP Computer Science A, AP Statistics, AP Physics I, AP Pre-Calculus, AP World History, AP US History, AP English Language, AP Human Geography, AP Psychology, AP Environmental Science

EXPERIENCE

Max App

Remote

Chief Technology Officer (CTO)

March '26 - Present

- Architected and developed a **cross-platform health self-improvement app in React Native and TypeScript**, using Expo and a serverless **AWS backend (Lambda, API Gateway, DynamoDB)** to handle user data, authentication, and push notifications; implemented CI/CD for over-the-air updates and **deployed to the App Store. Secured CBS News feature** (will be pushed out to 5m + people) & allocated partnerships with creators totaling 200k+ followers.

Massachusetts Institute of Technology

Remote

Research Collaborator

January '26 - Present

- Building the web and data infrastructure for a **living digital ethnography of AI in medicine under the MIT Critical Data Unit**, enabling **exploration of real-world clinical deployment** case studies and qualitative insights at scale. Collaborating with Dr. Leo Anthony Celi & 15+ researchers from all around the world. By developing **full-stack features** for researcher and clinician workflows using technologies such as React/Next.js, Python, and modern web tooling. Collaborating with clinicians and researchers to **translate study protocols and analysis needs**.

Emory University

Remote

Research Intern

June '25 - Present

- Developed machine learning and NLP pipelines to **identify disease status and age of Parkinson's Disease patients from Reddit data**. Researched digital phenotyping using ensemble and transformer models (RoBERTa, DeBERTa-v3, BERTweet, Mistral-7B). Assisted Dr. Abeed Sarker in validating classifiers (**F-macro 0.94/0.86**) for automated demographic extraction. Applied **Python, HuggingFace, and Reddit API** for scalable data analysis. **Oral presentation @ AMIA conference in Atlanta** as part of High School Scholars Program, **<7% acceptance rate**.

Seekir

Remote

Co-Founder

April '25 - September '25

- **Led the development** of an AI-powered research matching platform using **Next.js, TailwindCSS, and Python** designed to connect high school students with university professors. **Built a scalable researcher database of over 15,000 faculty profiles** and created a full-stack application to streamline the matching process. **Attracted over 300+ users** through outreach initiatives, product demos, and integration of automated AI tools for mentor recommendations.

UT Austin

Remote

Research Intern

July '24 - September '25

- Developing Actionable Machine Learning (AML) Methods for Diagnosing, Monitoring and Treating Parkinson's Disease. **Researching the causal analysis of Parkinson's disease** while working with a **recurrent neural network platform** called GLACIAL. Assisting Dr. Chandrajit Bajaj in validating and proving machine learning models dedicated to diagnose early. Working with technologies such as **Python, Anaconda, Tensorflow, Matplotlib**, etc.

StatOracle

Remote

Chief Technology Officer (CTO)

May '24 - June '25

- Collaborated with cross-functional teams to architect an **affordable, user-friendly analytics platform empowering youth sports teams with actionable data insights**. Spearheaded end-to-end development of a full-stack web application, designing scalable client management dashboards and real-time analytics tools to optimize team performance tracking. Build responsive, dynamic interfaces using **TypeScript, Next.js, and Tailwind CSS**, emphasizing accessibility and mobile-first design principles to ensure seamless usability for coaches and athletes across devices.

ACTIVITIES AND LEADERSHIP

Aid & Awareness United

Frisco, TX

President

September 2024 – Present

- Directing the growth of a nonprofit dedicated to raising money for cancer patients. Reaching over **75,000+ people**, **raising upwards of 35,000\$**, while **spanning over 8 states**, and **opening up 30 chapters**. Developed and maintained the **organization website driving over 2000+ people to the organization**. Collaborated with and donated to notable organizations such as NPCF, NFCR, and NBCF.

Research Made Accessible

Hou, TX

Co-CEO & Co-founder

June 2023 – Present

- Co-created an Research nonprofit, aiming to make research accessible for all. Managed, and created the organization website, **garnered in 1500+ applicants, along with 100+ acceptances**. **Created a 200+ professor network, along with 10,000+ followers on Instagram**. Additionally **impacted over 2,000 people through zoom webinars, and mentorship**. Directed the creation of a mentor-student matching system specifically designed to address the shortage of mentors and facilitate meaningful academic partnerships in order to make disadvantaged students more involved in academia.

Travis High School Computer Science Club

Hou, TX

President

April 2025 – Present

- Overseeing club, **improved membership by 30%**, set up a **game development contest**, and a middle school mentorship program teaching kids how to program. Assisted President in **organizing meetings biweekly**, along with setting agenda.

AWARDS AND RECOGNITION

EDIT AI Scholar

May 2026

- Selected for the EDIT AI Internship program associated with Dartmouth Hitchcock Medical Center <8% acceptance

AMIA High School Scholar

Nov 2025

- Selected for fully funded trip to Atlanta to orally present research @AMIA Annual Symposium <7% acceptance

USACO Gold

Feb 2025

- Top ~7% of competitive programmers in the United States

AIME Qualifier with Distinction

November 2025

- One of 3000 high school students in the nation to qualify for AIME with a 109.5/150 on AMC 12A.

Deca State Finalist

February 2026

- Ranked one of the top teams out of 700+ in Texas in Business Solutions Project advancing to ICDC

Deca ICDC Qualifier

January 2026

- One of 100 teams to qualify for Deca ICDC through Stock market game. Final rank was 36/6322

AP Scholar with Honor

July 2025

- Received an average higher than 3.5 on AP Scores taken throughout high school.

TEST SCORES

SAT - 1480

March 2026

AMC 12A - 109.5

November 2025

AP Computer Science Principles - 5

May 2025

AP Statistics - 5

May 2025

AP World History - 4

May 2025

AP Human Geography - 5

May 2024

SKILLS

Programming: , Python, JavaScript, HTML/CSS, React.js, TypeScript, Java

Tools: Git, Visual Studio Code, Bootstrap, PyCharm, TailwindCSS
